BAGONG PILIPINAS

VISION

CTU as a premier, inclusive, globally recognized research and innovation, smart, community-responsive, and sustainable technological university.

MISSION

The University shall primarily provide leading-edge programs, innovative professional, entrepreneurial, and technical instruction as well as research and extension program that address both the needs of the region and the nation in the context of the global knowledge economy, Fourth Industrial Revolution, and sustainability.

GOALS

By the end of 2028, CTU will be globally recognized for its quality. Specifically, it will:

- Obtain a Philippine university system status with a CHED SUC Level V recognition or equivalent;
- Be ranked among the Top 10 Universities in the Philippines;
- Achieve world-class performance and excellence using leading quality management systems for quality assurance and control;
- Be an internationally-recognized and ranked university (including Quacquarelli Symonds, Times Higher Education, The World University Rankings for Innovation, and other World University Rankings);
- *Develop education programs for enhanced career pathways, qualifications, recognitions, accreditations, specialization and progression programs, and global mobility; and*
- Lead innovations in the Fifth Industrial Revolution.

OUTCOMES

- Transformed visionary leadership in innovations to accelerate regional and national development in the context of the modern industrial revolution;
- Increase access by economically challenged but deserving students to relevant, quality, and world-class tertiary education with learning integration of practical experiences to achieve inclusive and sustainable growth.
- Developed research-intensive and multi-disciplinary university culture that strengthens higher education research, leading to economic productivity and innovation;
- Instituted innovative systems resulting in effective, efficient, sustainable, and equitable resource generation, mobilization and management, including optimal utilization of resources provided by the government and expansion of other revenue and funding systems for financial sustainability;
- Heightened sustainable community and stakeholder engagements, with harmonized institutional, financial, administrative, and policy frameworks that attain the highest academic, research, extension and resource generation excellence standars;
- Forged strategic local and international linkages, partnerships, and initiatives leading to a heightened regional and global role in the modern industrial revolution and human and intellectual capital for sustained economic development.
