Out-Campus Recruitment

Cebu Technological University, through its Public Employment Service Office (PESO), has been actively delivering quality services to its students, alumni, stakeholders or active linkages and the general public. It has efficiently promotes the dynamic exchange of employment opportunities and pursuable career for its clientele.

For 2017, CTU-PESO was able to receive a total of **121** frequencies of employment opportunities coming from various linkages not only in Cebu City but includes vacancies overseas. These were submitted through telephone calls, fax messages, emails, and personal visits of company representatives in the office. Job opportunities are then marketed/advertised through bulletin board posting in the campus, logbook register, and Facebook advertisement. These strategies are effective means in reaching out to the pool of job seekers within and outside the city. Moreover, through this activity, the university can keep track on the employability of graduates as these linkages provide feedback on the list of CTU graduates detailed in their respective companies.

The table below reflects the number of out-campus recruitment served by CTU-PESO. On the average, there is total of one (1) employment information that was received by the office per day. The type of jobs offered by each company ranges from office functions to field works.
